

# Elijah Cea

## Full Stack Web Developer

Coconut Creek, FL • 754-230-1624

[elijah.cea01@gmail.com](mailto:elijah.cea01@gmail.com) • [elijahcea.com](http://elijahcea.com) • [github.com/elijahcea](https://github.com/elijahcea) • [linkedin.com/in/elijahcea](https://linkedin.com/in/elijahcea)

### SKILLS

---

**Languages & Frameworks:** JavaScript/TypeScript, Python, React, Next.js, Vue.js., Node.js, GraphQL

**Styling & UI:** Tailwind CSS, HTML5, CSS3

**Databases & ORMs:** PostgreSQL, Prisma ORM

**Cloud:** AWS (AppSync, API Gateway, Lambda, EC2, ECS), Azure, Terraform

**DevOps & Tools:** Git, GitLab CI/CD, Bitbucket Pipelines, Jenkins, Vercel

### PROJECTS

---

**Preuve - E-commerce Storefront** |  [preuvenewyork.com](http://preuvenewyork.com)

*Next.js • TypeScript • Prisma • PostgreSQL • Tailwind • Auth0 • Vercel*

- Built a full-stack e-commerce storefront from scratch, including product pages, cart, and **PostgreSQL schema** using **Next.js App Router**, **TypeScript**, and **Prisma ORM**
- Designed and implemented a **REST API** layer using Next.js API routes, consumed by the companion admin application and protected with **Auth0**

**Preuve - Admin Console** |  [admin.preuvenewyork.com](http://admin.preuvenewyork.com)

*Vue.js • TypeScript • Vite • Tailwind • Auth0 • Vercel*

- Built a separate **Vue 3 + Vite** admin SPA that consumes the storefront's API to manage products, variants, and page content
- Implemented **Auth0 JWT authentication** for user login and managing access to the underlying CRUD endpoints

### EXPERIENCE

---

**CloudHesive** • Fort Lauderdale, FL

**Developer Trainee** *Jan 2026 – Present*

- Built **GraphQL** resolvers using Node.js and **AWS AppSync**, then integrated them into a Vue 3 frontend
- Designed elegant and user friendly **Vue 3** components with state change indicators to enhance UX
- Contributed and collaborated with a development team using a **Kanban** workflow

**CloudHesive** • Fort Lauderdale, FL

**Cloud Engineer II** *May 2023 – Jan 2026*

- Led a multi-region **AWS disaster recovery** project for a nationwide EV charging network using **Terraform**, **ECS**, **Jenkins**, and **Bitbucket**.
- Supported a large-scale migration to AWS for a federal loan servicer under the U.S. Department of Education, automating infrastructure configuration using **Terraform**, **GitLab**, and **Python**

**CloudHesive** • Fort Lauderdale, FL

**System Administrator** *May 2022 – May 2023*

- Secured and monitored AWS environments for SMBs, implementing alerting with **GuardDuty**, **CloudWatch**, **EventBridge**, and **SNS**.
- Ensured **SOC 2 and HIPAA** compliance by remediating AWS environments across internal and customer accounts

### EDUCATION

---

**Florida State University** • Tallahassee, FL

**B.A. in Economics, Minor in Business** *Aug 2020 – Aug 2023*

### CERTIFICATIONS

---

- AWS Certified Solutions Architect – Associate *Nov 2023*
- HashiCorp Certified: Terraform Associate (003) *Oct 2023*
- AWS Certified Cloud Practitioner *Aug 2022*
